Treat Drug Abusers Reduce Crime • Save Money • Save Lives

Seventy percent of people in state prisons have used drugs regularly, but fewer than one-fifth of these people receive treatment.¹ Treatment cuts drug abuse in half, reduces criminal activity up to 80 percent, and reduces arrests up to 64 percent.² Every \$1 spent on treatment yields a \$4 to \$7 reduction in drug-related crime.³

Visit drugabuse.gov for more information, or call 1-800-729-6686 and request publication #BKD 550, **Principles of Drug Abuse Treatment for Criminal Justice Populations**, a guide based on nearly 40 years of research.
